

Potter's Wheels

Van Tuyl has developed and manufactured a very successful range of Potter's Wheels under the well-known trade name "Verga".

Main Features:

- Durable fiber-glass top with a drainage pipe for easy cleaning.
- A 320mm diameter, grooved, solid aluminum worktop wheel.
- All frames are made from powder coated steel tubing and fitted neatly to the body.
- One of the legs are adjustable for leveling your wheel on uneven floors.
- Fitted with a wooden seat.
- Fitted with a high-grade, waterproof switch.
- Standard units are fitted with a 3700 Watt motor with a variable wheel speed of 0-200 r.p.m.
